Egrigor:-

In occultism an egrigori is a supernatural intelligence called a "Thoughtform", which is often produced by the power of the "will" or visualization by participants in a group. ^{TOP}Thought forms in such incidents are produced by group force. The psychic Ted Serios said that when tffs are forcibly produced they could leave ~~any~~ photographic film.

Every living thing is a sort of imperialist, seeking to transform as much as possible of its environment into itself... When we compare the (present) human population of the globe with that of former times; we see that "chemical imperialism" has been... the main end to which human intelligence has been devoted.

to think that we are in
control is an illusion
holding on to our sins is
refusing to relinquish control

When you come under the covenant you have exhausted your agency in that thing.
